This ensures you'll be amongst the very first to receive the detailed itinerary and rates as soon as they become available.

Adjustments to this expedition schedule may occur as dates and itineraries are finalized.

Meet Our Leaders

Jonathan Rossouw

Jonathan is one of the world's most experienced expedition leaders, having guided wildlife expeditions in over 150 countries on all seven continents. He combines a legendary enthusiasm with an impressive knowledge of all aspects of natural history.

Kevin Clement

Not many people can say they have lived within Alaska's Denali and Glacier Bay National Parks, but Kevin is one. Nowadays, he spends most of his time leading adventures on all seven continents. As an artist, Kevin never travels without his sketchbook, or his sense of humor.

Peter Harrison

Peter has led expeditions throughout the world, from the Arctic to the Antarctic and everywhere in between. He has written and illustrated over a dozen books, of which his latest, *SEABIRDS: The New Identification Guide*, published May 2021, has been described by one reviewer as "a masterpiece of science and art."

Shirley Metz

Shirley's careers and accomplishments have spanned the globe. She co-founded Hobie Sports, developed active clothing lines, and consulted with major clothing manufacturers before becoming the first woman to ski overland to the South Pole to raise awareness for Antarctic conservation.

Marco Tonoli

Marco's love of the world's wilderness areas and the people within them led him to pursue what has turned into an adventurous career as a naturalist, guiding trips throughout Africa and India. Not only is Marco a talented photographer and videographer, he's also a skilled wildlife tracker.

Gerald Broddez

Gerald has been leading wildlife-focused expeditions to some of the planet's most rewarding destinations for over 30 years. As a veteran expedition leader and lecturer on expedition ships, Gerald has traveled on all the world's oceans. His life list of mammals and birds is equally impressive.

Liam Rainier

Liam's love for the wilderness was instilled in him at an early age—his father's own adoration of nature fueled a steady exposure to new landscapes and fascinating wildlife. He has spent the last decade as a naturalist guide. His excitement and pure joy of experiencing wildlife sightings, big or small, is contagious.

Matt Boyle

Matt's passion for underwater exploration has led him to study the unique ecosystems that exist beneath the waves and gain a deep understanding of the ocean's secrets. His unwavering love for exploration and discovery makes him a true adventurer in every sense of the word.

Duke Brady

From tropical research expeditions to guiding backcountry hikes, Duke's background is rooted in science and adventure. With degrees in both ecology and media, and a passion for nature and land stewardship, he worked as a botanist for the U.S. National Park Service and on film projects for the Discovery Channel.

Meet Our Leaders

Diogo Lucatelli

Diogo's passion for the natural world led him to study biology, ecology and natural resources in Salvador da Bahia, Brazil. After graduating, he immersed himself in understanding the wetlands of the Pantanal, honing his guiding and tracking skills. His love for Brazil is evident in the way he shares his knowledge with others.

Ingrid Nixon

Ingrid is a professional storyteller and former National Park Service ranger. She has worked in expedition tourism for over three decades, sharing stories of exploration, folklore, and natural history, while leading groups and driving Zodiacs. Ingrid also performs at storytelling festivals and events across the U.S.

Dan Olsen

Dan has called Seward, Alaska, his home for nearly 20 years, working as a whale researcher, tour captain, and mountain and kayak guide. Dan became entranced with the variety of calls of killer whales and returned to graduate school where he dove deep into behavior, movement, diet, and family-specific call dialects.

Richard Visser

Born and raised in Cape Town, Richard always had a passion for the bush, and exploring and discovering new places, in general. He turned this passion and love into a career as a professional safari guide, spending ten years at various lodges and game reserves around South Africa and Tanzania before joining Apex.

Our Nine-Pointed Star

The compass rose, with its eight cardinal and ordinal points, resembles a star itself, but there are places to which an ordinary compass will not guide you. The ancient symbol of a nine-pointed star, took this into account with its ninth point symbolically indicating the way to a destination as yet undiscovered. Such destinations have always called explorers and seekers to distant horizons. We at Apex Expeditions have adopted the nine-pointed star as our symbol because its meaning aligns with our own philosophy of discovery and adventure.
